Thanks Dan. I will likely change some of the wells we did last fall to complement your list but stay with a total around 5 wells. Should I also coordinate with John on our splits? If so, can you provide his contact info?

Shawn, here's what I told John Regan about EPA's splits for the July event:

John,
Thanks for the schedule update. James Johnson, an OSC here at Region 7, will be at the site the week of July 8 in my stead to collect EPA's split samples. I would like to split the following wells, which are mostly the ones I split in April, though we can substitute others if necessary for scheduling or access reasons:

S-82 / I-9 / D-93
D-6
D-83
PZ-102-SS
PZ-113-AD
D-3 / I-4 / S-5
PZ-101-SS
D-85

Sincerely,
Daniel R. Gravatt, PG

Dan,

Can you give me a brief update on EPA plans for split sampling (i.e. which wells and what dates you are planning to sample)? I would like to coordinate our split sampling for this round so we do not duplicate any wells. Once I hear back from you I will coordinate with Paul on our splits.

Thanks,
